Subject: Letter of Recommendation

To Whom It May Concern,

It is my pleasure to provide this letter of recommendation for Ms Aygul Pasiyeva, who successfully completed the Data Analysis & AI Hands-On Training Program at Victoria Solutions from 10th August to 6th September 2025.

During this four-week intensive training, Ms Aygul Pasiyeva actively engaged in a structured learning program that offered hands-on data analysis and AI experience through practical projects and real-world business case studies. The program covered key areas such as:

- **Data Analysis and Predictive Modeling using Python, TensorFlow, PyTorch, and Apache Spark**
- **Data Wrangling, Cleaning, and Visualization using SQL, Power BI, and Tableau**
- **AI Integration with Tools like ChatGPT and Gemini for Enhanced Data Interpretation**
- **Prompt Engineering Strategies for Real-Time Data Science Workflows**
- **Industry Best Practices and Case Studies from Multinational Business Scenarios**

Ms Aygul Pasiyeva demonstrated strong analytical skills, problem-solving abilities, and innovative thinking throughout the program. Her proficiency in data analysis, AI integration, and data-driven decision-making were commendable. She effectively collaborated with peers, successfully completed all assigned projects, and actively participated in review sessions. As a dedicated and hardworking individual, Ms Rohith Joseph Thomas has shown great adaptability and a keen interest in data analysis and AI. I am confident that she will be an asset to any organizations she chooses to be a part of. I highly recommend Ms Aygul Pasiyeva for any professional opportunities that align with her skills and career aspirations. If you require any further information, please do not hesitate to contact us.

Sincerely,

Sarang Patil
